**U-2 Pilot Killed;
In Coast Crash**

CPYRGHT

Pending notification of kin, it wasn't disclosed which test pilot perished when a U-2 high altitude scout plane crashed in the desert yesterday three miles north of Edwards AFB, Calif. A spokesman did say it wasn't Francis Gary Powers, who was shot down in a U-2 over Russia in 1960 and now works for Lockheed California Co., which employed the pilot on yesterday's routine flight.
